1. Field of the Invention The present invention generally relates to image forming apparatuses and image forming methods and, more particularly, to an image forming apparatus which forms an image on a long-sized medium with a long-sized apparatus and an image forming method which allows for reliable image forming in the image forming apparatus. 2. Description of the Related Art In recent years, various types of apparatus have been developed to print on various types of media, such as a roll paper, a roll film, and a sheet of non-coated paper. Further, there has been proposed a so-called long-sized printing to print on media of a large size. For example, Japanese Laid-open Patent Publication No. 2003-106570 discloses a media transport method which transports a continuous medium which is wound around a rotary drum in a roll paper, a roll film, or a sheet of non-coated paper. Further, Japanese Laid-open Patent Publication No. 2006-212013 discloses an image forming apparatus in which a medium is fed from a roll paper, a roll film, and a sheet of non-coated paper. The image forming apparatus disclosed in the above-mentioned publications is, however, designed to handle media of a predetermined size (length, width, and weight) which is smaller than the actual size of the medium to be handled. That is, to form an image on a medium of a large size, the medium must be manually cut to a desired size. In such a case, it is hard to properly align the medium with an image forming unit, and thereby the image forming process fails. Further, a space for storing the cut medium in a storage portion must be provided to prevent the medium from being scattered during the cutting operation, thereby occupying a large space., that was pretty much the way we ended up! The fortunate thing for us was that our bird was an exceptional breeder and she ended up with three sons and one daughter. She produced amazing eggs – she was the perfect mother with her own way to rear her own offspring. Carrying a child is an exciting experience and I was brimming with pride when she finally shared her first chicken egg with me on the third day. She took so much pride in that egg and the 2nd and 3rd eggs she carried. The experience of raising our own chicken eggs has been truly amazing. My children now look forward to enjoying their eggs for breakfast. They can get excited about

Q: How to hide 'edit posts' link in wordpress? I want to hide the 'edit posts' link in wordpress. Currently the only way I can do this is to change the theme to twentyten. So, I can basically change the 'edit' link to 'super-users only' link. Is there a way to hide it without changing themes? A: In your functions.php, add this to your theme: `function my_admin_bar_menu() { global $pagenow; if ($pagenow == 'edit.php') { wp_die('Edit'); } } add_action('admin_menu','my_admin_bar_menu');` Read more: `add_action('admin_menu','my_admin_bar_menu');` I'm a multi media musician and a kind of hip hop – a spiritual hip hop – inventor of my own style of music, which is androgyny – avantgarde with religious meaning.
