In House Digital Publishing Software (IHDP) Crack (April-2022)

***** IHDP is the first of its kind online publishing software for creating digital flip books out of PDF documents. IHDP enables you to create a beautiful and interactive flip books in just a few steps. IHDP is FREE for single-user personal use, as well as for multi-user. Unlike other flip books solutions, IHDP allows you to save your personal settings to make it easier for you to manage your books later on. IHDP boasts a wide range of media options that make your book perfect for a variety of purposes, e.g. publications, presentations, magazines, catalogs, and so on. ***** Create digital flipping books with attached table of contents Starting a new project requires you to browse for the input PDF file, choose the conversion format and configure a few other importing preferences. The preview area takes most of the space in the main window, where you can browse the flip book to see how it will turn out. You can crop the document, add it bookmarks and notes, and translate the text it contains. Additionally, IHDP comes with built-in search capabilities, an integrated magnifier and hard cover options. Aiming to provide a user-friendly browsing environment for your customers, IHDP enables you to generate a table of contents in the form of either an index of the pages or a "goto page" option. Customize the looks and the interaction mode for the output There are also a few other editing options available. The background can be customized to your liking, be it a color or an image. You can also change the color of links and bookmarks, as well the appearance of buttons, toolbars, page navigation area and the footer of the flip book. IHDP also allows you to add background music in order to amaze your audience with a high-impact catalog. To make sure you create a delightful experience for your customers, IHDP enables you to change the flipping speed and adjust the maximum zoom level. Individual pages or even the entire document can be protected to ensure its security. Create digital flipping books with ease Flipping books created with IHDP are customizable and highly interactive. Aside from contents of a PDF document, they can embed vector graphics and media files of all kinds, hyperlinks, logos, and so on. This offers you the freedom to generate staggering catalogs and presentations. In House Digital Publishing Software (IHDP)
