Program Number of Credits North Carolina Center for New Technology 51 INTRODUCTION The NC Center for New Technology (NCNTV) was established in 2002 to provide the citizens of North Carolina, students, schools, educational institutions, and colleges and universities worldwide with free access to the best quality information that is available on the Internet (including Web sites), syndicated multimedia news and information content, free electronic magazines, e-journals, social networking services, graphics content, live broadcasts, video footage, music and audio files, and on and off-line database software. The center also provides guides for the transition of Web 2.0 to Web 3.0. Mission The NCNTV mission is to provide information that is relevant and of value to the citizens of North Carolina, the students, schools, educational institutions, and colleges and universities worldwide, and the Internet research community. The center provides information through Web 2.0 resources, multimedia news and information services, new venture and business focused online magazines, scholarly journals and e-journals, social networking services, and access to databases and databases. Target population NCNTV's primary target population includes the citizens of North Carolina, the students, schools, educational institutions, and colleges and universities worldwide, and the Internet research community. The center, as a part of NCNTV, provides information through Web 2.0 resources and multimedia news and information services to reflect the needs, interests, and experiences of the general population, the students, schools, educational institutions, and colleges and universities worldwide. Objectives The primary objectives of NCNTV are to provide and disseminate accessible information resources, and to ensure that the information is accurate, timely, unbiased, and relevant to the needs and interests of the target population. In addition, NCNTV will help the transition of Web 2.0 to Web 3.0 through the use of a code of conduct and ethics in Web 2.0 news and information services and to provide free web 2.0 based programming, guides, and resources. Target Audience NCNTV's primary target audience is the North Carolina citizens, the students, schools, educational institutions, and colleges and universities worldwide, and the Internet research
