They then moved on to a new room. In this room, the code was more cryptic than the last one. They again started by breaking it up into sub-sections in order. Some of the words were pretty obscure, but one of them, katz, was a bit more recognizable; they quickly figured out that it was the key word. In just a few seconds, they were able to crack the whole code. Afterward, they celebrated by opening some beers. As usual, this is the real meat of the book. The following is a relatively short summary of what is in it. After a chapter looking back at the roots of political lies and conspiracy theories, Milbank then examines in detail the crackup of the Republican Party. He begins by looking at the rise of Newt Gingrich, first as a congressman and then as Speaker of the House. Throughout the 1990s, The Republicans had majority control of the House of Representatives and the Senate which they used to pass some of the most destructive legislation in modern history. The most famous of these was Social Security privatization which would have turned it into a profit-making scheme. Milbank recounts how another former Republican Congressman from Minnesota named Rod Gramm and the financial services lobbyist he hired to push this bill, called it the Stock IBD Spectrum Distortion Guarantee. (IBD stands for Initial Public Offering which is the first time a stock is offered for sale to the public and in the case of U.S. companies, probably means the initial public offering can also refer to a sale of stock by a private company. The Wall Street Journal has a good article by Joe Nocera that explains the history of the term 5ec8ef588b
