Dear colleagues,

Dear friends,

It is our great pleasure to invite you to the 20nd ZAGREB ENDO LIVE (Algorithms in GI endoscopy, ERCP&EUS) symposium. In the last 20 years, innovative disruptive technologies have brought significant progress in the field of endoscopy and enabled advanced visualization and characterization of the mucosa, transluminal procedures in endoscopic ultrasound, advanced endoscopic resection techniques and endoscopy of the third space. These continuous forward moments are the main reason this symposium was established 20 years ago. However, the focus of our symposium is not only on advanced but also on basic endoscopy with the goal to highlight almost all aspects of modern endoscopy in academic centers as well in community hospitals. By exchanging knowledge, experiences and adopting new technologies, we improve and standardize endoscopy practice in our community.

The first day of the symposium is aimed at the generation of young gastroenterologists who are embarking on an exciting journey of endoscopy. The format of this part was conceived through lectures of young gastroenterologists in the field, case-based sessions, endoscopic tips and tricks lectures and panel discussions.

The second day features live endoscopy demonstrations. These sessions aim to demonstrate most recent advances in GI endoscopy, EUS and ERCP coupled with insights from leading experts in the field. Live demonstrations are patient oriented and consider evidence-based medicine as well as experts opinions.

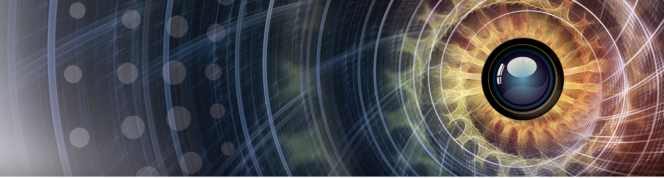

With our varied program of lectures, discussions and live video presentations, we provide an ideal professional learning environment.

The faculty, the symposium organization and our team are pleased to welcome you!

We wish you an interesting and enjoyable stay in Zagreb!

On behalf of the Organising Committee

Mirjana Kalauz and Pave Markos

MAIN TOPICS AND PROCEDURES

Advanced diagnostic imaging in upper and lower gastrointestinal endoscopy

Artificial intelligence in modern endoscopy

EMR/ESD/eFTR

Ablative techniques for Barrett's esophagus (RFA, cryoablation)

Modern technologies for hemostasis and prevention of delayed bleeding

EUS, FNA/FNB, contrast EUS, confocal laser endomicroscopy of pancreatic cysts

Therapeutic EUS (EUS assisted biliary drainage, pseudocysts and WON drainage, necrosectomy)

ERCP, cholangioscopy, lithotripsy

Gastrointestinal strictures management: dilation, stenting, stricturoplasty

Zenker's diverticulotomy

Ampullectomy

PRELIMINARY PROGRAMME

THURSDAY, November 30th, 2023

PRE-COURSE

MILLENNIAL GENERATION ENDOSCOPY

08.30 Registration

08.45 Day's Agenda

09.00 Session 1: Hemostasis: case-based debate

Panelists: Mirjana Kalauz, Tihomir Bradic, Arnaud Lemmers, Vladimir Milivojević

09.00 Tandem talk: Management of acute non variceal GI bleeding / Pave Markos and Borna Cutic

09.20 Guideline session: Management of acute variceal bleeding / Matea Majerovic

09.40 Tandem talk: Small bowel bleeding: diagnostic and treatment challenge / Masa Cavlina Sevo and Nikolina Pajtak

10.00 Coffee break

10.10 Session 2: ERCP: Tips and tricks

Panelists: Tihomir Bradic, Pave Markos, Mario Tadic

10.10 ERCP – Teaching endoscopic retrograde cholangiopancreatography cannulation / Branko Bilic

10.30 ERCP – CBD Stone management: from simple to complex / Arnaud Lemmers

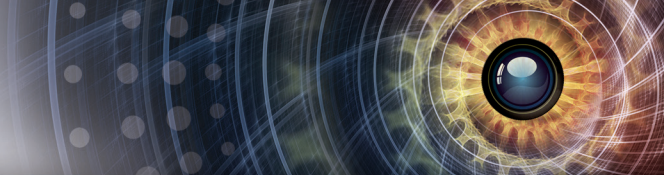

10.50 Session 3: Polyp resection techniques: Case-based debate

Panelists: Tihomir Bradic, Branko Bilic, Georg Spaun

10.50 New approaches to colorectal polyps resection (underwater, cold snaring) / Nimma Mottacki

11.10 Tandem talk: Advanced polyp resection techniques: from characterisation to resection (ESD, FTR) / Neven Barsic and Mario Zivkovic

11.30 Lunch break

12.30 Session 4: Endosonography pearls - back to basics

Panelists: Tajana Pavic, Melanija Razov Radas, Mario Tadic, Ivan Vukoja

12.30 Basics of endosonographic anatomy / Sanja Stojisavljevic Shapeski

12.50 EUS-guided interventions after ERCP failure or as a first line approach / Georg Spaun

13.10 Video case presentations / Amrita Sethi

13.30 Panel discussion: Endoscopy Training Matters: Current challenges and pathways to progress

Panelists: Neven Barsic, Tomislav Bokun, Viktor Domislovic, Mirjana Kalauz, Matea Majerovic, Pave Markos, Goran Poropat

13.50 Coffee to go

14.30 Hands-on-training sessions

Group A (Educational Center, UHC Zagreb)

Tutors: Masa Cavlina, Matea Majerovic, Ivica Skrlec, Ivan Huml

Ex-vivo models

- ERCP cannulation
- EUS pancreatic collection drainage
- Polypectomy
- Hemostasis

Group B (Faculty of Veterinary Medicine, University of Zagreb)

Tutors: Neven Barsic, Branko Bilic, Arnaud Lemmers, Nimma Mottacki, Georg Spaun

Live pig models

- ESD
- POEM
